The "AND" operator is unnecessary -- we include all search terms by default. [\[details\]](#)

Web Results 1 - 10 of about 252 for "particulate polymer" and "plug flow" and (fed or feeder or feeding) and heat. (0.42 seconds)

Polymer treatment for separating volatile material - US Patent 7232878

By "plug flow mode" is meant throughout this specification that the flow of It is preferred to **feed the particulate polymer continuously to the purge ...**

www.patentstorm.us/patents/7232878-description.html · 45k · [Cached](#) · [Similar pages](#)

Apparatus for producing polyolefin grafted copolymers - US Patent ...

Further, the faster you **feed** the monomer(s) to the reactor, the faster the **heat** is generated and the greater the **heat transfer** problems. ...

(WO/2002/088194) POLYMER TREATMENT FOR SEPARATING VOLATILE MATERIAL

It is preferred to **feed the particulate polymer continuously to the purge vessel. ...** **Plug flow** can be achieved using conventional industrial equipment. ...

www.wipo.int/pctdb/en/wo.jsp?wo=200202F088194&IA=WO2002%2F088194&DISPLAY=DESC · 51k · [Cached](#) · [Similar pages](#)

(WO/2005/105859) POLYOLEFIN TREATMENT FOR SEPARATING VOLATILE MATERIAL

According to this process, the **particulate polymer is fed** to a purge vessel and It is preferred to **feed the particulate functionalized polyolefin ...**

Polymer treatment invention

[0014] By "plug flow mode" is meant throughout this specification that ... It is preferred to **feed the particulate polymer continuously to the purge vessel. ...**

www.freshpatents.com/Polymer-treatment-dt20080928ptan20060217528.php · 35k · [Cached](#) · [Similar pages](#)

Polyolefin treatment for separating volatile material invention

According to this process, the **particulate polymer is fed** to a purge vessel is subjected to **heat** in an aqueous media, preferably in hot water or steam, ...
